Introduction

Welcome to the *Cambridge Latin Course Unit 1 E-Learning Resource*. The *Resource* supports school-based teachers and students using Unit 1 of the *Cambridge Latin Course*. **A multi-user site license from Cambridge University Press (CUP) is required to access the software. All users of the DVD will also need a copy of the textbook (ISBN 978-0-521-78228-9).** The textbook is available from bookstores or directly from Cambridge University Press (www.cambridge.org/us/education/latin/). To request a multi-user site license, please contact CUP by email (orders@cambridge.org), by phone (800 872 7423) or by mail (Cambridge University Press, 100 Brook Hill Drive, West Nyack, NY 10994-2133).

Intended Users

The *Resource* has been designed for the following school-based users:

- specialist Latin teachers
- non-specialist teachers
- students learning with a specialist Latin teacher
- students learning with a non-specialist teacher.

Email techsupp@cambridge.org for technical support

The Cambridge Latin Course

The *Cambridge Latin Course* is the world's most successful Latin course, with approximately 4,000,000 copies sold. A story-based reading course, it traces the lives of a group of characters in the Roman world of the first century AD. Language and culture are integrated from the very outset by using as much authentic Roman subject matter as possible. The Course is set firmly in a Roman context and frequently introduces historical characters. Its systematic presentation of social, political, and historical aspects of Roman culture is both a valuable part of general education and an essential preparation for the reading of Roman authors. The Course therefore presents language not as an end in itself, but as a means of gaining access to literature and to the culture from which it springs.

Unit 1 is set in the city of Pompeii, shortly before the eruption of Vesuvius. For those who continue their studies, further books in the Course take the reader to Roman Britain, Egypt and imperial Rome.

Unit 1 forms a coherent program of study in its own right (see **Content of Unit 1**, p. 5) and assessment is provided at regular intervals.

Content of Unit 1

Unit 1 is divided into 12 Stages (or chapters). The main language features of Unit 1 include:

- nominative, dative, and accusative cases, singular and plural, using nouns of the 1st, 2nd, and 3rd declensions
- present, imperfect, and perfect tenses, all persons, using verbs of the 1st, 2nd, 3rd, and 4th conjugations
- word order
- personal pronouns
- intransitive verbs
- comparatives and superlatives
- questions.

The main civilization topics include:

- Roman families
- houses
- daily life
- the town of Pompeii
- the forum
- the theater
- slaves and freedmen
- life and death
- gladiators
- the baths
- schools
- local government and elections
- the eruption of Vesuvius; the destruction and excavation of Pompeii.

Assessment

At the end of every Stage, students are encouraged to carry out self-assessment by completing Progress Records. Formal assessment tests, which should be marked by the teacher, are offered at the end of Stages 2 to 12. At the end of Stages 4 and 8 attainment tests are provided to assess a student's ability to translate the language up to those Stages.

Electronic Activities

The *Resource* houses approximately 1,000 activities in a number of media and of various types, marked with standard icons:

simple text and image screens

videos (short story and Stage introductions, dramatizations and documentaries)

audio-based materials

question-and-answer activities

interactive, including drag and drop, materials

teaching activities

print resources (such as Teacher's Notes and Activity Sheets)

web links.

Duration of Activities

The activities vary in length from 30 seconds to 1 hour, but the majority last 4-5 minutes, enabling study via different media in any one lesson. The duration given to an activity is a suggested duration only – users should devote the time they feel is warranted to any given activity. No duration is given to scripts for videos, teacher's notes and notes for independent learners, exploring activities, web links and certain other activities where it is neither possible nor desirable to suggest a duration.

Source for Activities

The majority of the activities on the *Resource* have been newly commissioned for the DVD. Teachers who are familiar with the *Cambridge Latin Course* will be aware that some activities are digital adaptations of activities found in the *Omnibus Workbook* and the *Activity Masters* for Unit 1. Where such activities have been used in the *Resource*, their content has often been altered for the new medium, resulting in changes such as the addition, removal or reorganization of individual questions.

The DVD was originally created to support the UK edition of the *Cambridge Latin Course*. While every effort has been made to align activities to the North American edition, this has not been possible with the dramatizations.

Access to Answers

Teachers should be aware that the *Resource* contains the answers to many activities in the textbook and its associated print materials. Full translations of all stories in Unit 1 are also provided in the Teacher's area. Teachers have access to many more answers than students and therefore access to the Teacher's area is available through password-protected log-in only.

The majority of the textbook's Practicing the Language activities have also been reproduced in electronic format. Teachers who are concerned about student access to these materials should discuss the situation with their network manager and take appropriate steps to limit student access as desired.

Organization of Activities

The software organizes the activities in each Stage into the following folders: Introduction, Stories, Language, Civilization, Completion. It is hoped that this arrangement of the activities will allow teachers to quickly identify activities appropriate for specific learning aims.

Installation

The *E-Learning Resource* can be run directly from the DVD or installed onto standalone or networked PCs and Apple Macintosh computers. To install the *Resource* onto your computer, you will need to have 5Gb of hard disc space available. (The *Unit 2 Resource* can be combined with a previously installed *Unit 1 Resource*, or installed separately.)

PC

Insert the DVD into your DVD drive. The installation routine should auto-run, but if it does not, double-click ‘PC_installer_Unit_1.exe’ and follow the instructions.

Mac

Insert the DVD into your DVD drive. Double-click ‘Mac_installer_Unit_1.osx’ and follow the instructions.

PC and Mac

Because there is a large number of files on the DVD, the software installation may take 20 minutes or longer, depending upon the speed of your computer. It is recommended that you restart your computer after installing the software. Should the installer fail to operate, simply locate the ‘CLC E-Learning Resource’ folder on the DVD and drag it onto your computer.

Network Installation

Network managers should be aware that the software contains facilities for teachers to change passwords and to create and save playlists of activities. To use these facilities, teachers will need read/write privileges to the following text files only:

- prefs.txt (located in the CLC E-Learning Resource\Content\Data folder)
- any text files in the ‘playlists’ folder (CLC E-Learning Resource\Content\playlists).

Students require read-only access to the software.

Network managers should also be aware that the software checks for an internet connection on start-up by attempting to download a small text file. The software therefore needs to have the necessary privileges to be able to access the internet. If access to the internet is not available, most aspects of the software will function correctly, but online registration and playlisting will be inaccessible to the teacher.

Please use the Passwords/Settings facility on the Teacher's Home Page to access proxy server settings.

Installation Support

Should you encounter any problems with the installation, please email techsupp@cambridge.org.

Licensing and Logging In

When you launch the *Cambridge Latin Course Unit 1 E-Learning Resource* for the first time, you are asked for details of your multi-user site license for the software. Use of the software in a school or other institution requires a multi-user site license. The multi-user site license can be obtained from Cambridge University Press (see **Introduction**, p. 3).

UNIT 1 CAMBRIDGE LATIN COURSE

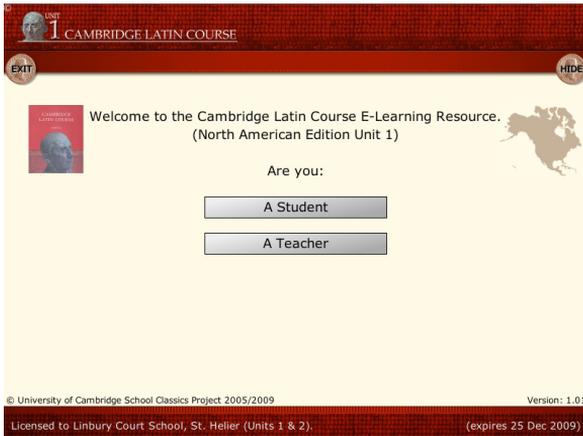

LICENSE REQUIRED
Any school or institution wishing to use this software needs to purchase a multi-user annual site license.
NOTE: If you use a proxy server requiring a password:

Once you have entered your license number and security code, you will be taken to a log-in screen allowing you to log in as a student or teacher.

No password is required to access the software as a student. Since teachers have access to all answers, access is password-protected. The default password for teachers is [please contact Cambridge University Press at techsupp@cambridge.org].

Teacher's Home

The Teacher's Home Page gives teachers access to all aspects of the software.

Register as a Teacher

Registering as a teacher enables you to:

- store your playlists online – your students can access them from any computer connected to the internet (e.g. you will be able to create playlists at home and use them on the school network without having to transfer any files)
- receive an email whenever we release an update to the program.

When you register, you will be asked to supply an online username. Once you have registered, you will be given an individual Teacher ID number. This information allows us to establish an online area for your playlists, which only you will have access to. Please write down your username and ID number and keep them safely.

Please note that we will not, under any circumstances, disclose your details to a third party.

Update Profile or License

Updating your profile gives you options such as changing your contact details. Also use this area if you have upgraded or renewed your license by telephone, email or post.

Password / Settings

Change the password for teachers logging in to the software here. Please note that this will change the password for **all** teachers who log in to the software on a network. You may supply an email address to which your new password may be sent, should you forget it. Settings for networks with proxy servers and for alternative fonts may also be accessed here.

Online Support & Updates

From time to time we will release updates to the software.

Choose Activities

Click here to access the activities themselves. For details on navigating to the activities, see **Choosing Activities** on page 15.

Choose a Playlist

Access playlists that you have created and stored either online or on your computer. See **Choosing a Playlist** on pages 29-30 for full details.

Create a Playlist

Create your own list of activities in advance of a lesson. You may then play the activities back to the students as part of your whole class teaching or allow students to work through the playlist at their own pace on one or more computers. See **Creating a Playlist** on pages 22-6 for full details.

Edit/Delete a Playlist

Edit or delete a playlist which you have previously created. See **Editing or Deleting a Playlist** on pages 31-2 for full details.

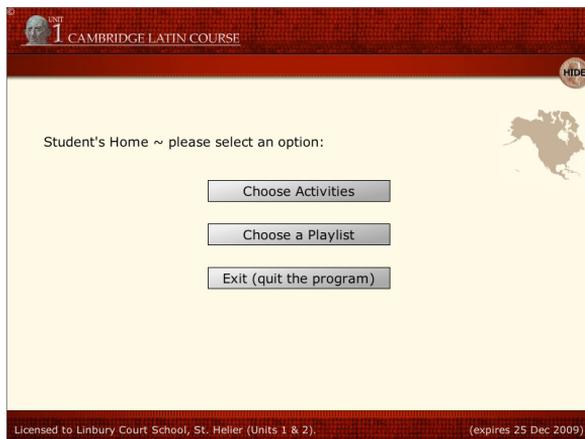

Reenter as a Student

Click here to return to the log-in screen.

Exit (quit the program)

Click here to close the software.

Student's Home

The Student's Home Page gives students access to the following features of the software.

Choose Activities

Click here to access the activities themselves. For details on navigating to the activities, see **Choosing Activities** on page 15.

Choose a Playlist

Access playlists that your teacher has created and stored either online or on your computer. To access playlists that your teacher has stored online, you will need to know your teacher's ID number and the number of the particular playlist your teacher wants you to use.

Exit (quit the program)

Click here to close the software.

Choosing Activities

From your Home Page, click **Choose Activities**. (Throughout the *E-Learning Resource*, single clicks only are required. Clicking twice will result in the software attempting to carry out an instruction twice and will therefore slow down the response of the software.)

Please note that the following notes show screen shots taken from the teacher's access to the software. Certain options and information shown in the screen shots may not be available to students.

Choosing a Unit

If you have combined your installation of the *Unit 1 E-Learning Resource* with an installation of the *Unit 2 E-Learning Resource*, you will be able to choose either Unit 1 or Unit 2 by clicking the appropriate icon. If you have installed the *Unit 1 E-Learning Resource* independently, click the Unit 1 icon.

Choosing a Stage

You will now be shown a list of the Stages that make up the Unit you have selected. Moving the mouse cursor over the Stage icons will display rollover text which contains notes for both teachers and students. If you access the software as a student, the teacher's notes will not be displayed.

The screenshot shows the 'UNIT 1 CAMBRIDGE LATIN COURSE' interface. At the top, there are 'HOME' and 'UNIT' buttons. A grid of 12 stage icons is displayed, each with a small image and a label: 'Caecilius Stage 1', 'In villa Stage 2', 'negotium Stage 3', 'In foro Stage 4', 'in theatrō Stage 5', 'Felix Stage 6', 'cēna Stage 7', 'gladiatōres Stage 8', 'thermae Stage 9', 'rhetor Stage 10', 'candidatī Stage 11', and 'Vesuvius Stage 12'. On the right, a 'Stage 1' panel is open, showing 'Duration: 01:25:30', 'Student's Notes' (a welcome message about a virtual-reality tour), and 'Teacher's Notes' (linguistic features like the verb 'est' and the present tense).

UNIT 1 CAMBRIDGE LATIN COURSE

HOME UNIT HIDE

Stage 1

Duration: 01:25:30

Student's Notes
Welcome! In Stage 1 you will begin to learn Latin and to discover Roman civilization through a variety of exciting activities. You will go on a virtual-reality tour of a Roman house, meet a Roman family and see them at home in their villa, and read a story about a mischievous dog - entirely in Latin!

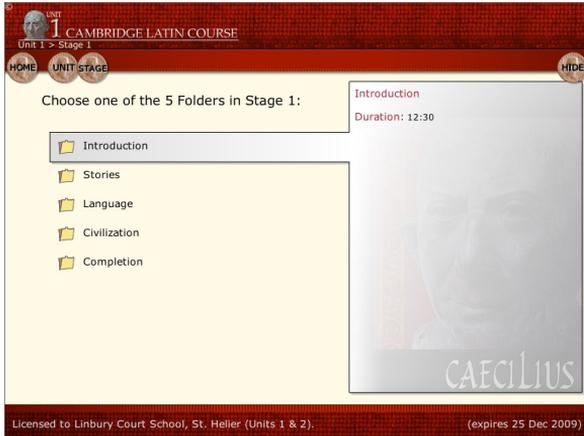

Teacher's Notes
The main linguistic features in Stage 1 are: Simple Latin sentences, using the verb *est* (is), and with the same word order as English. Simple Latin sentences, using verbs other than *est*, and with a different word order from English (the verbs being placed at the end of the sentence). The present tense is used throughout (although the term is not introduced to students until Stage 6).

Licensed to Linbury Court School, St. Helier (Units 1 & 2). (expires 25 Dec. 2009)

To access a Stage, click the relevant Stage icon. To return to the Unit option screen, click the Unit coin in the top left of the screen.

Choosing a Folder

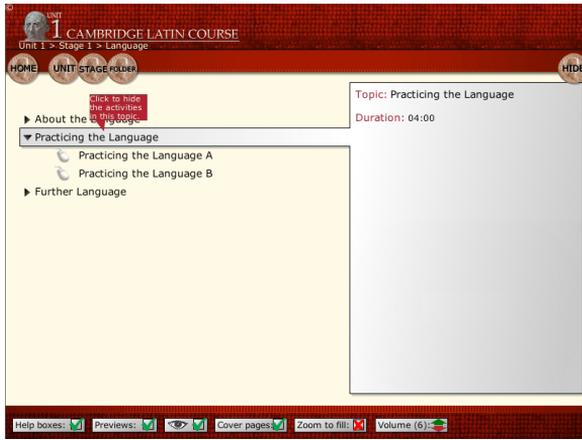

Clicking a Stage icon will take you to an individual Stage menu screen, where you will be presented with a choice of five folders: Introduction, Stories, Language, Civilization and Completion.

Rolling the mouse cursor over a Folder displays the total duration of all Activities in that Folder. A Folder contains a set of Activities organized into Topics. To open a Folder, click on the relevant Folder icon. To return to the Stage option screen, click the Stage coin at the top of the screen.

Choosing a Topic

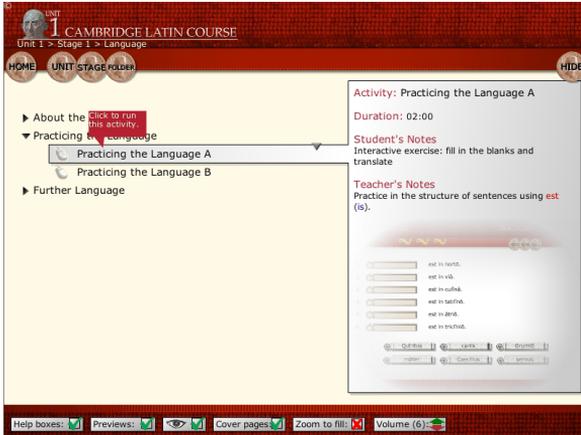

The Activities in a Folder are organized into a small number of Topics. Roll your mouse over the Topic title to display information about the Topic.

Click a Topic title to open up the list of Activities contained within the Topic. Alternatively, to return to the Folder option screen, click the Folder coin at the top of the screen.

Choosing an Activity

Roll your mouse over an Activity title to display details about the Activity. If you have ticked the **Preview** box at the bottom of the screen, a preview of the Activity will appear in the bottom right of the screen.

To run an Activity, click its title. Notice the **Cover pages** tick box at the bottom of the screen. If you turn the cover page on, you will be taken to a page of information which serves as a preview to the Activity which follows.

Click to hide the *E-Learning Resource*. To show the *E-Learning Resource* again, click the software in the ‘task bar.’

Creating a Playlist

(This facility is only available to teachers.)

From the Teacher's Home Page, click **Create a Playlist**.

The screenshot shows a web interface for creating a playlist. At the top, there are buttons for 'Home', 'Open Search', 'Preview', 'Help', 'Finished editing? Click!', and 'Continue'. Below these are tabs for 'By The Book Course', 'Cover pages', 'Playlist', and 'Notes'. The 'Playlist' tab is active, showing a table with columns for Unit, Stage, Folder, Topic, and Activity. The table contains the following data:

Unit	Stage	Folder	Topic	Activity
1	Introduction	Start the Stage		Introduction: Script
2	Stories			Introduction
3	Language			Welcome!
4	Civization			Model Sentences 1-6
5	Completion			Model Sentences 7-12
6				Model Sentences 13-18
7				
8				
9				
10				
11				
12				

Below the table is a preview window titled 'STAGE 1: CAESILIUS' and 'INTRODUCTION: SCRIPT'. The preview shows a photograph of a Roman archaeological site and text explaining that Roman life documentaries are accompanied by scripts available to teachers. It provides instructions on how to view and print the script.

Navigating to an Activity

To locate an activity, navigate by clicking in the relevant columns to change the selected Unit, Stage, Folder, Topic, and Activity. When you click on the name of an Activity, a preview of it is shown in the bottom right quarter of the screen. You can work through the Activity here to assess its relevance to your teaching objectives. To enlarge the preview, click the yellow triangle in its top left corner. Click the yellow triangle again to reduce the preview.

When you have found an Activity which you would like to add to your playlist, click the box to the right of the Activity name, altering the empty box to a black tick. The title of the Activity will then appear in your playlist, located in the bottom left quarter of the screen. Clicking the tick box again will remove the Activity from your playlist.

STAGE 7: CENA UNDERSTANDING POST CENAM

Student Teacher

Translate the following lines from *post cenam* by selecting the English translation that matches the Latin sentence. The story is on page 110 of your textbook.

CONTINUE

In the image above, the teacher has navigated to the Activity **Understanding post cenam** in Stage 7 by clicking Unit 1, then Stage 7, then the Stories Folder, then the Topic **post cenam**, and finally the teacher has clicked the name of the Activity to display it in the bottom right quarter of the screen. To add the Activity to the playlist (bottom left), the teacher has ticked the box to the right of the Activity title. Notice that the selected Unit, Stage, Folder, Topic, and Activity are highlighted as the user clicks on them.

Searching for Activities – entering search criteria

The software contains a search facility to help you find Activities to add to your playlist. To activate the search facility, click **Open Search** at the top of the playlisting screen.

- Block**: A row of numbered buttons from 1 to 12, with a **Go** button.

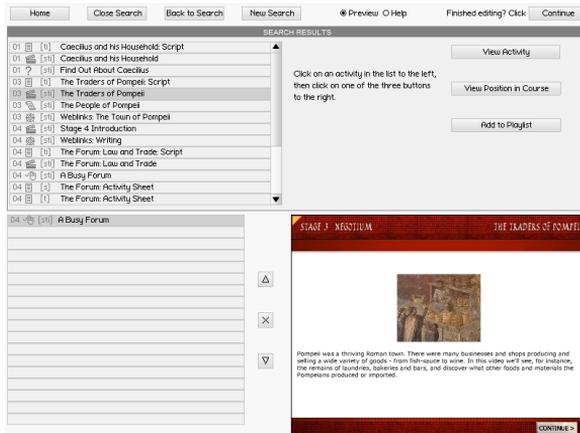

The software allows you to search for Activities by keyword, page number, intended user group, and/or medium type. Use the **SETTINGS** column on the left to select which of these criteria you would like to search by. Click each of the four criteria you wish to employ in your search and tell the search engine whether you wish it to find activities which match all the criteria you set, or activities which match any one criterion. (A ‘**Match all**’ search will return fewer activities than a ‘**Match any**’ search.)

To search for activities which match a particular keyword, first select the appropriate keywords to display using the **Keyword** drop-down menu (choose from either language or civilization keywords). Then click the appropriate **Match** button to search for activities which match all keywords or activities which match any keyword. Finally, click the boxes to the left of the keywords you wish to search by. To search for activities which match a particular page range, first click a Stage number, then limit the page range using the up and down arrows on the page range boxes to the left. To limit your search to activities relevant to a particular user group, click the box to the left of the appropriate group.

To limit your search to activities of one or more types of medium, click the box to the left of the appropriate medium or media. As you enter your various search settings, the number of activities which match your search criteria will be displayed in the **SETTINGS** column.

Searching for Activities – viewing search results

To view a list of the Activities which match your search results, click **View Results** (top right of the Search screen).

The Search screen is replaced by the Search Results screen, populated with the list of Activities which meet your search criteria. Clicking an Activity title generates a number of options. To view the Activity, click **View Activity** and the Activity will be displayed in the bottom right quarter of the screen. You can enlarge the Activity by clicking the yellow triangle in its top left corner and then work through the Activity. To return the Activity to the bottom right corner, click the yellow triangle again. If you wish to add the Activity to your playlist, click **Add to Playlist**. If you wish to view where the Activity appears in the course, click **View Position in Course**.

You may carry out as many searches as you desire when building a playlist. Once you have finished searching, click **Close Search** and the original navigation panel will be displayed again in the top half of the screen. You may continue adding Activities to your playlist as before or carry out more searches.

As the length of your playlist increases, you may wish to reorder the Activities in it. Click an Activity title, then use the up or down arrows to move the Activity up or down the running order. To remove an Activity from your playlist, click the Activity title and then click the 'X' symbol.

Once you have finished editing your playlist, click **Continue** (top right) to name and save the playlist.

If at any time you wish to leave the playlisting facility without saving your playlist, click **Home** (top left).

Saving a Playlist

SAVING YOUR PLAYLIST

1) Enter a name for your playlist (e.g. "Year 8 Revision Week 3"):

2) Enter notes for this playlist (optional):

Teacher Notes:

Student Notes:

3) Click

Or, if you do not want to save it yet, click

Or, if you want to abandon it and return Home, click

Once you have created your playlist, give it a name that will help you identify it later. You may also add teacher and student notes to appear alongside your playlist. Finally, save your playlist by clicking **Save**. This will save your playlist onto your computer (or network, if you are running the software over a network).

Saving a Playlist Online

When you save a playlist, it is automatically saved on your computer (or network if you are running the software over a network). If you wish, you may also save the same playlist online. This facility allows you to create a playlist on any computer with internet access and use it again on any other computer with internet access. For example, you can create a playlist at home which your students can later access from school if all the computers involved have internet access.

To use this facility, your computer needs internet access and you need to have registered as a teacher (see **Register as a Teacher** on page 12). Registration is required because we need to allocate the right playlists to the right teachers.

To save your playlist online, enter your teacher ID and your online username and click **Save online**. The playlist will be allocated a number which will enable you and your students to select it more easily when choosing a playlist.

The screenshot shows a web interface for the Cambridge Latin Course. At the top, there is a purple header with a small portrait of a man and the text 'CAMBRIDGE LATIN COURSE'. Below the header, there are two circular buttons labeled 'HOME' and 'HIDE'. The main content area is yellow and contains the following text: 'SAVING YOUR PLAYLIST ONLINE', 'Your playlist has been saved as "Latin 1 Lesson 1.txt" in the "Playlists" folder.', and a paragraph explaining that registered users can save playlists online for access from any computer. Below this text are two input fields for 'Teacher ID:' and 'Username:', followed by a 'Save online' button. A link 'Forgotten your Teacher ID or username? Click here.' is provided below the input fields. Further down, there is a section for users who are not registered, with a 'Register as a Teacher' button. At the bottom, there is a question 'Don't want to save this playlist online?' with two buttons: 'Return to Editing' and 'Go Home'.

Transferring Playlists Offline

It is possible to transfer playlists from one computer to another without internet access via removable storage devices such as USB memory sticks. Playlists are stored in the CLC E-Learning Resource\Content\playlists folder. Copy the playlist from the playlists folder on one computer into the playlists folder on the target computer or network via a removable storage device. If you wish to copy the playlist onto a network, you may need to ask the network administrator for the relevant permission. Glossary

Activity a single electronic item for study support, often lasting only a few minutes and with a specific teaching or learning objective. Activities may be studied individually or in the context of a Playlist.

Independent learner a school student who is not studying the same material as the main body of the class. Such a student may have joined a Latin class late in the year and need to catch up with other students, or be working ahead of the rest of the class.

Non-specialist teacher a teacher who is not trained or experienced in the teaching of Latin.

Playlist a list of Activities assembled by a teacher for use in wholeclass projection or across a number of networked computers.

Folder all Activities in a Stage are organized into one of five Folders: Introduction, Stories, Language, Civilization and Completion. Within each Folder, Activities are subdivided into one or more Topics.

Specialist Latin teacher a teacher who is trained or experienced in the teaching of Latin.

Stage a division, or chapter, of the *Cambridge Latin Course*. Unit 1 is divided into 12 Stages. Each Stage contains new language features and deals with an aspect of Roman culture.

Topic a division of a Folder, and itself a collection of Activities. Topics have a common theme and the number of Topics in a Folder varies depending on the number of themes within that Folder.
